WIKY

design stramigioli associati

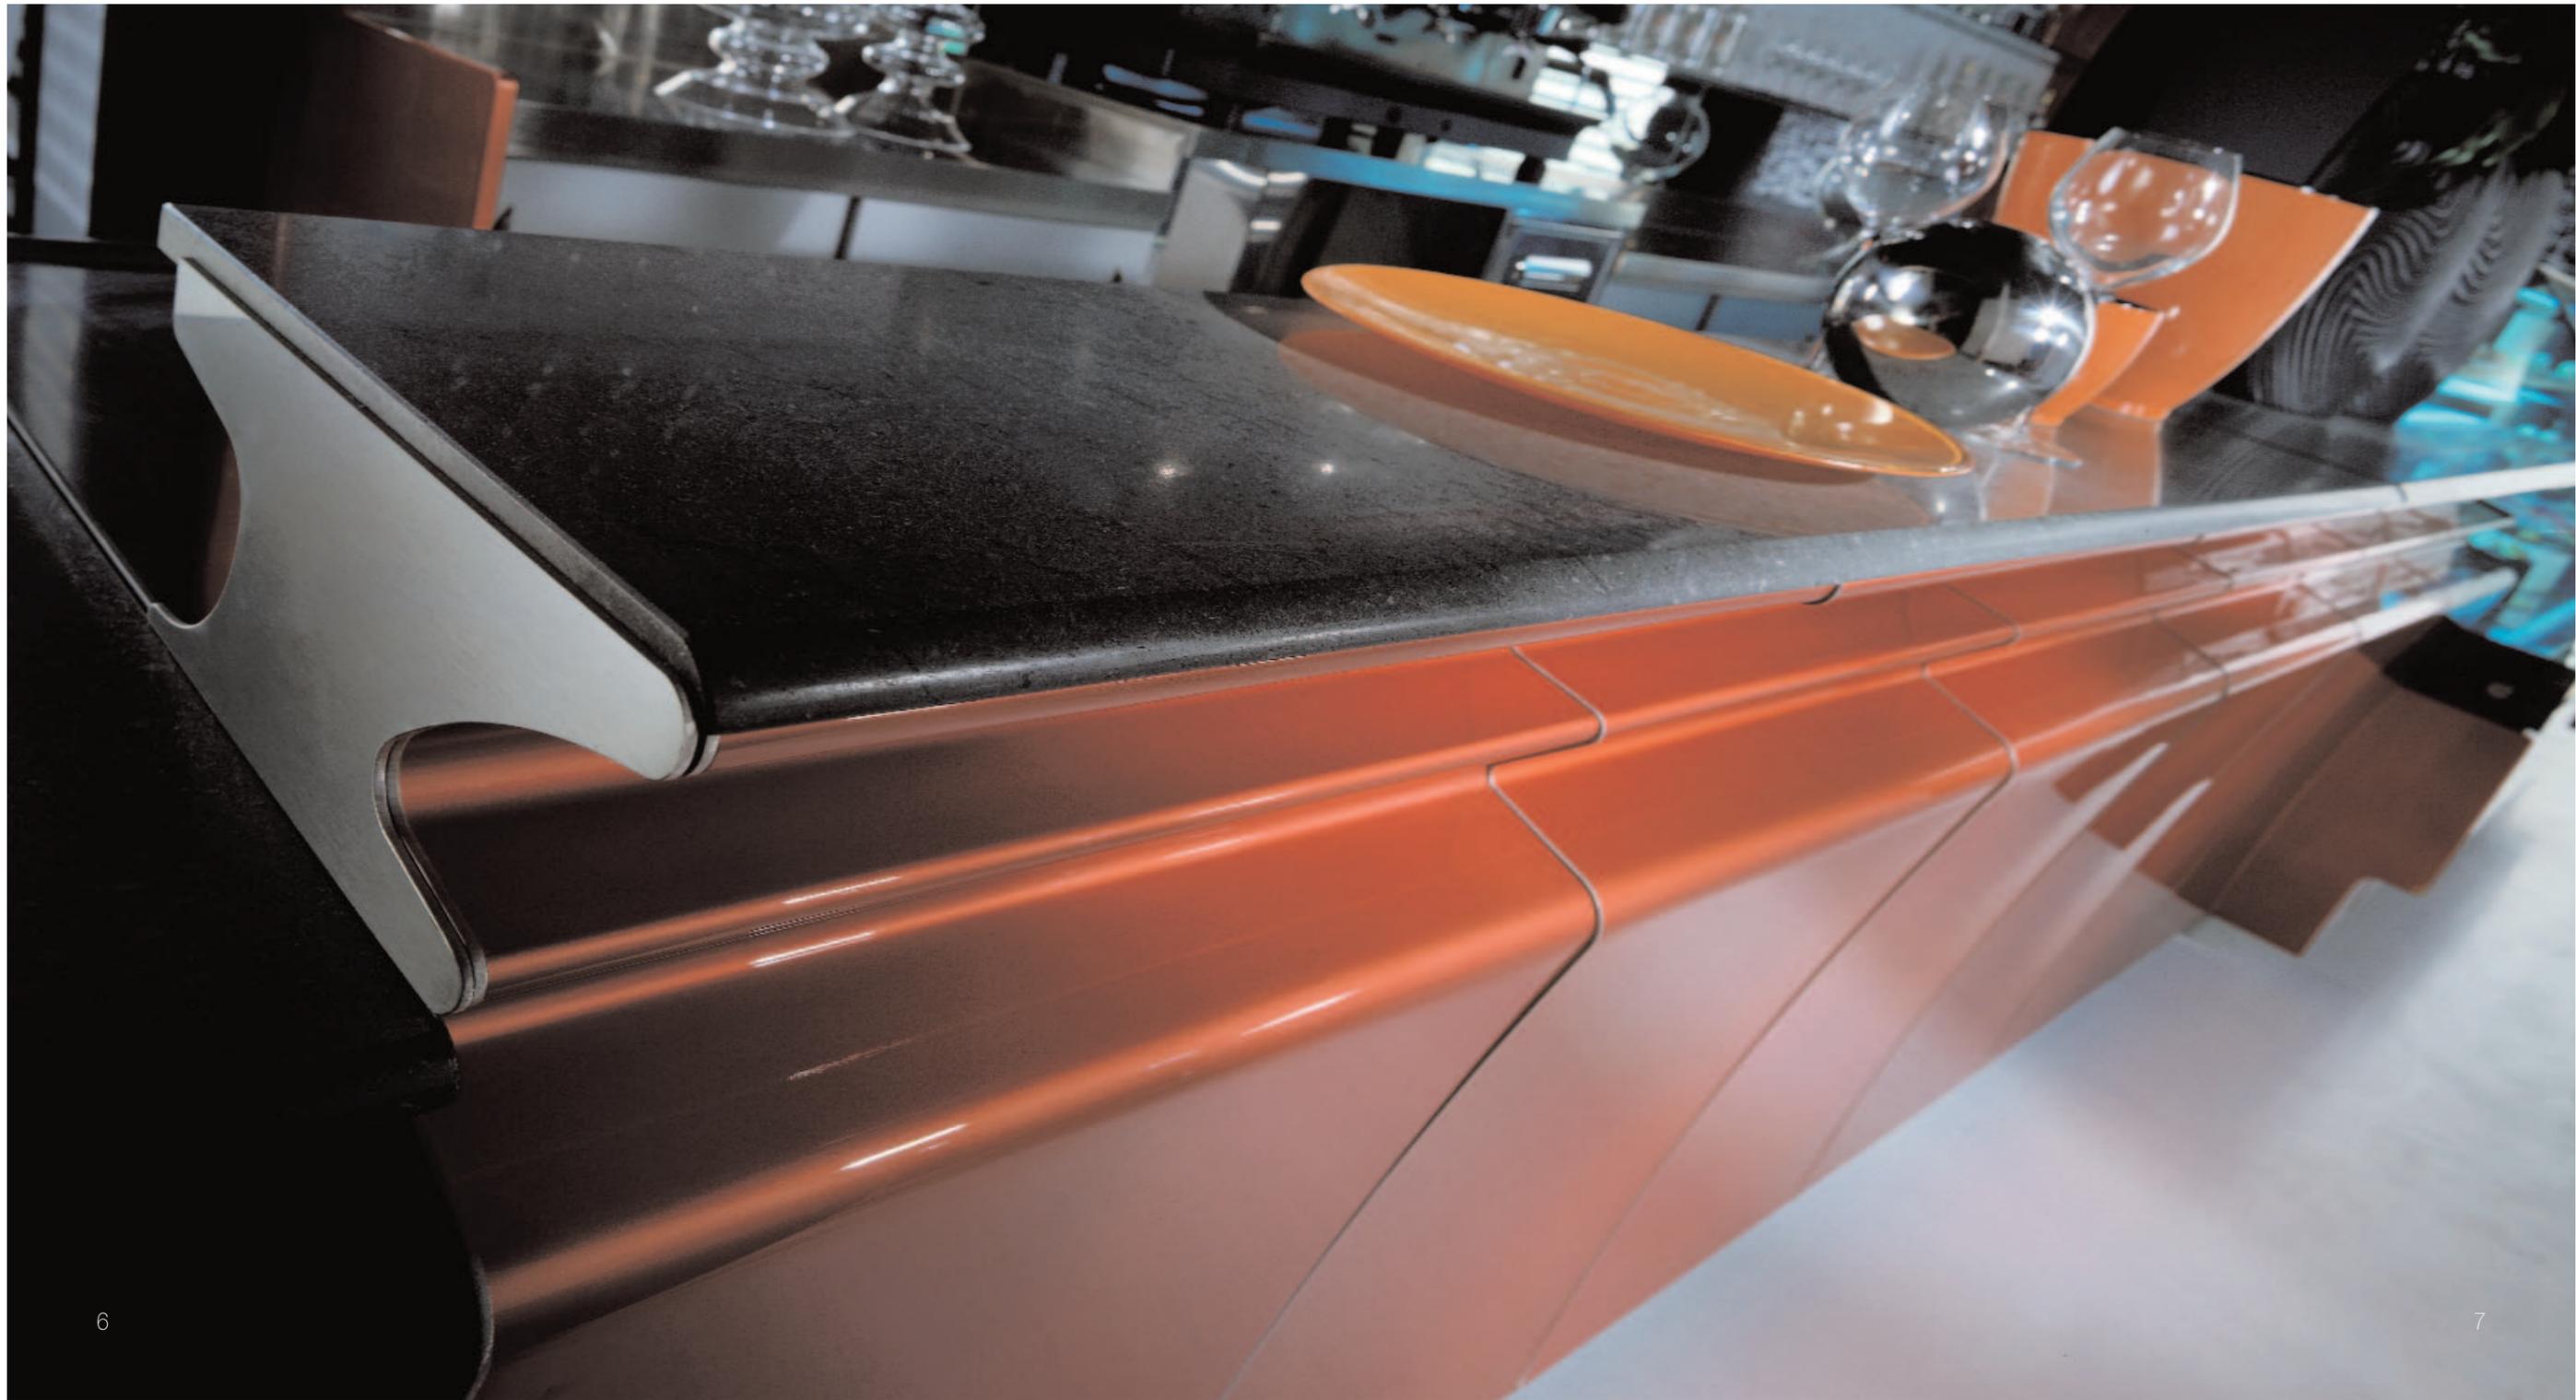

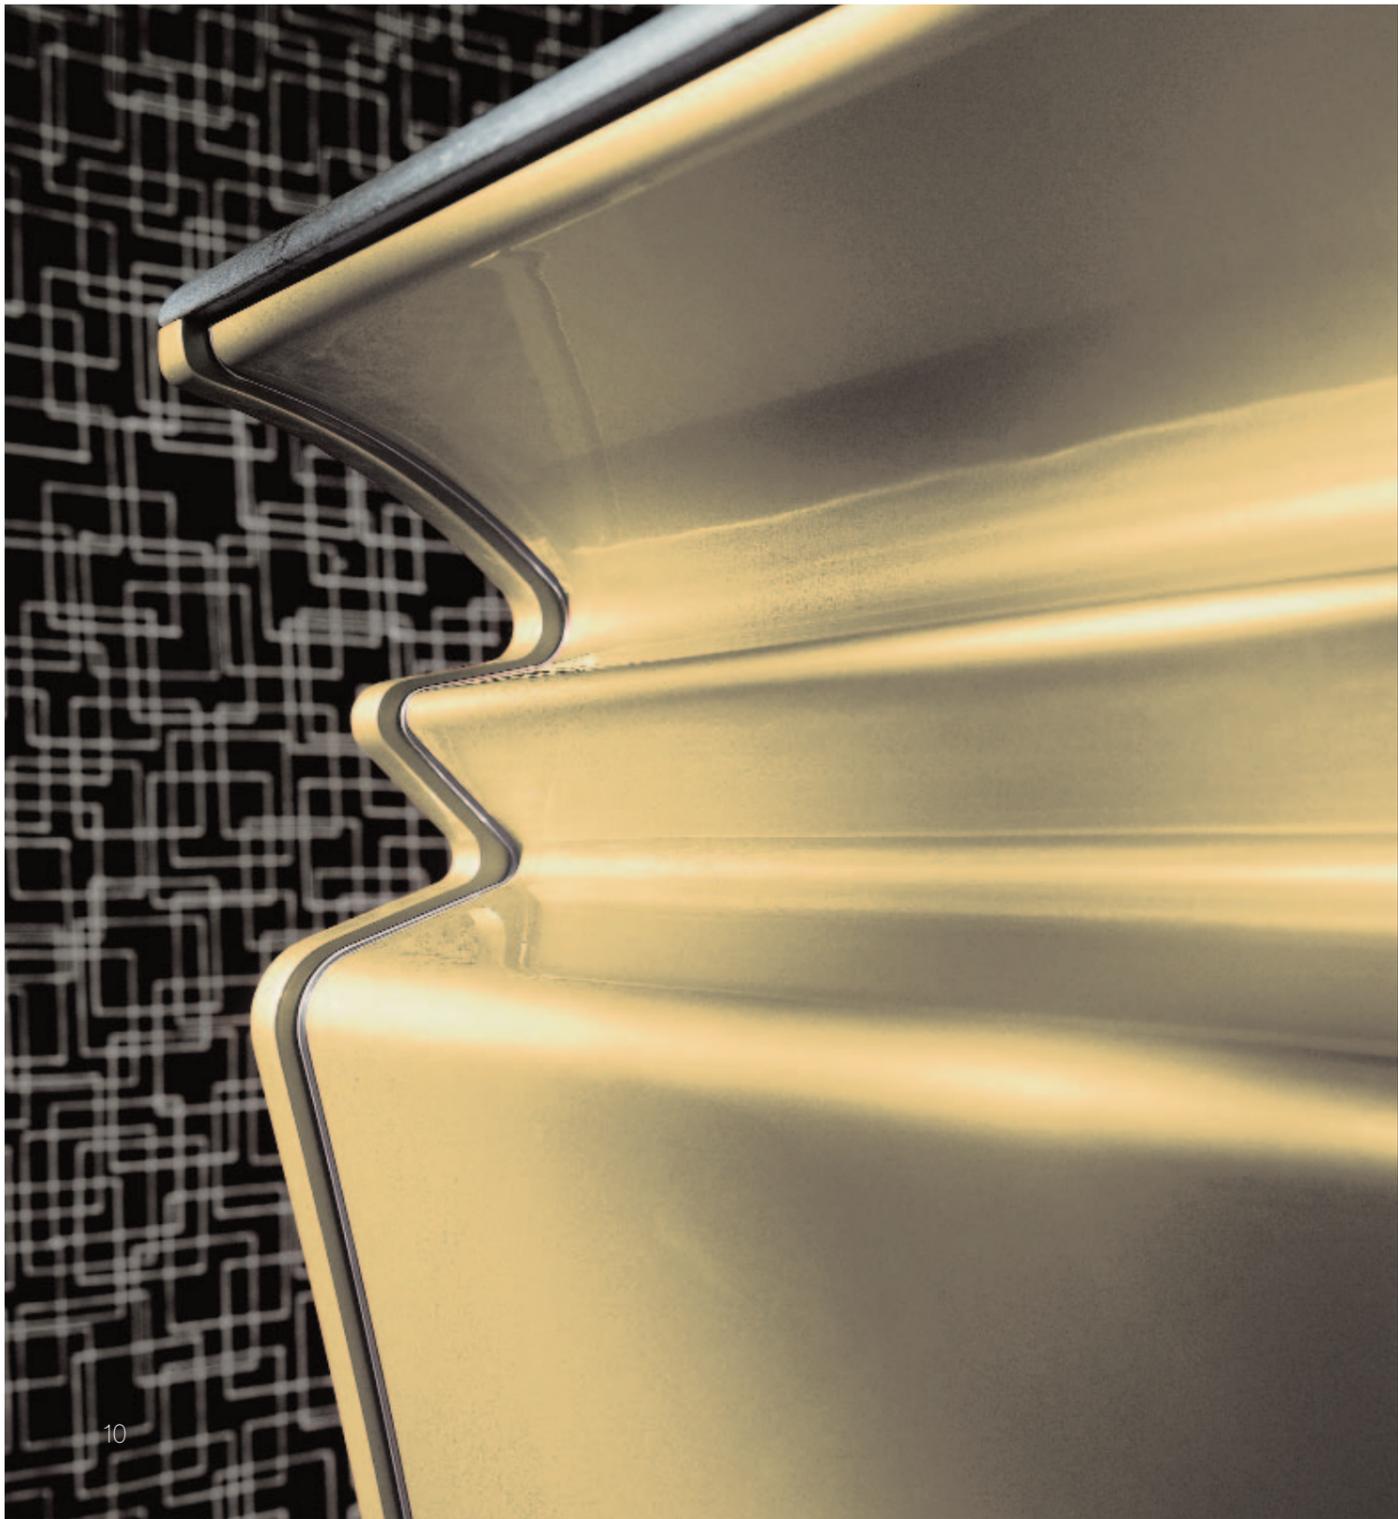

Nuove tecnologie plasmano la materia plastica che assume forme inaspettate. E così laccature hi-tech si ammorbidiscono in onde classicheggianti. In perfetto connubio di tendenze diverse.

New technologies mould the material, leading to unexpected shapes. The hi-tech lacquering softens in classic waves: a perfect union of different trends.

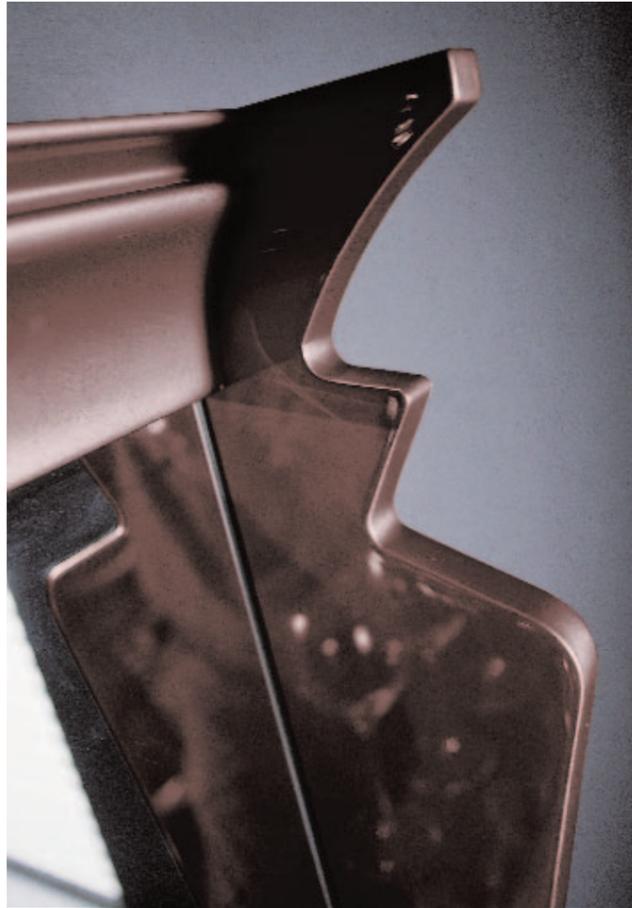

Abbiamo scelto di utilizzare materiali plastici per la loro eccellente resistenza all'usura, per la loro versatilità e per la loro incredibile capacità di creare uno stile.

We have decided to use synthetic materials for their excellent resistance to wear, for their versatility and for their incredible capacity to create a unique style.

Gioca sui contrasti: il design contemporaneo imita i capitelli delle colonne e si veste con le calde venature dell'essenza del legno.

It plays on contrasts: the contemporary design copies the capitals of the columns and puts on the warm grains of the wooden finishing.
